

## Local and Other Matters

FROM THURSDAY'S DAILY, NOV. 7.

**Progressing.**—The roof of the New Tabernacle is being shingled.

**Third District Court.**—Proceedings in the District Court this morning, Chief Justice Schaeffer presiding:

Wm. H. Greenhow vs. B. Y. Hampton; by agreement suit dismissed at defendant's cost.

James Cullinan vs. Iris Mining Company; judgment for plaintiff for \$3,073.01, and special execution against property attached.

**Logan Temple.**—We learn from Brother Truman O. Angell, Jr., the architect of the Logan Temple, that the work on that edifice is progressing finely. During harvest time, the work was delayed on account of so many of the workmen being obliged to attend to their crops, but that being over, the last four weeks the work has been pushed vigorously ahead. The structure is now about 23 feet above the level.

**Special.**—The following special has been received per Deseret Telegraph line:

MANTI, Nov. 7, 1878.

*Editors Deseret News:*

Returns of the general and special election held in Sanpete County, November 5th: For Delegate to Congress, Geo. Q. Cannon received 1,292 votes. For probate judge, James A. Allred received 1,289 votes, scattering, one vote.

**Examination.**—Yesterday afternoon, following the introduction of Mrs. De Saules' testimony, several witnesses were examined in the Fossburgh case; and before a conclusion was reached, court adjourned till this morning at 10 o'clock. Though five charges were brought against the defendant, in order to save time and expense, but one was proven. This was the robbery of Mrs. De Saules' residence.

The evidence adduced being pointed, and his offence being established beyond a doubt, he was bound over to await the action of the grand jury, under bonds, in the sum of \$1,500. The jury will be likely to take cognizance of the several cases of robbery in which he has been concerned, so he will probably find eventually that his plunder has been dearly obtained.

**Y. M. M. I. A.**—Having been appointed to the superintendency of the Young Men's Mutual Improvement Association of this Stake, at a meeting held in the Council House, October 28th, 1878, we request all superintendents to send us an immediate report answering the following questions:

What are the names of your officers?

When do you elect your officers?

How many names have you enrolled?

What is your average attendance?

When do you hold your meetings—day and hour?

Please direct reports to Heber J. Grant, Stake Secretary of Y. M. M. I. A., Salt Lake City.

There will be a special meeting held in the Council House, on Monday evening, November 18th, 1878, to which officers are urged and members of associations are invited.

JOS. H. FELT,

GEO. C. LAMBERT,

JNO. W. TAYLOR.

**Provo Items.**—From the *Enquirer* of November 6, we learn the following:

Six miles of track have been put down on the Pleasant Valley Railroad.

Last Saturday evening, Richard Mendenhall, of Springville, while chopping ties in Spanish Fork Cañon, cut his foot, badly.

The Provo postoffice is removed from its old quarters, to the opposite side of the street.

At Payson, last Wednesday morning, the two Elmer boys had a quarrel, when the younger drew a knife and inflicted a painful though not dangerous wound upon the person of his brother.

Mr. Brigham Stone, of the same place, while hauling lumber, fell off the wagon and dislocated his right arm at the shoulder joint.

Harris' comedy company is doing a good business in the southern country.

**Collision.**—A collision occurred in the U. C. R. R. yard about seven o'clock last evening, which resulted in damaging slightly two passenger coaches and an engine. The circumstances of the affair were as follows: At the time mentioned, U. C. R. R. engine number one was standing on a track at the south end of the yard, awaiting an opportunity to switch into the engine house; and the two cars were at the north end of the yard on the same line. Mr. David Love, who was in charge of the switching at the time, gave orders that the engine was to remain stationary for a few minutes, until the track should be cleared. But the word was apparently misunderstood; for, instead of standing, the engine advanced, tender forward, down the track. In the meantime Mr. Love had reached the cars, and ordered the driver of the switch engine to push them up the line for the purpose of leaving them on a side track. Owing partially to the darkness the danger was not observed until too late to be prevented. The tender of engine number one struck the approaching train, breaking her own cross beam and demolishing a platform to each of the cars. Mr. Love, seeing the situation a single instant before the collision occurred, released the brake which he was holding, and sprang from the train. As he reached the ground, the headlight of the switch engine flew past, just grazing his body.

No person was injured; and the damage, not being very serious, will be soon repaired.

**Ogden Items.**—The following items are from the *Junction*, November 6:

On Monday night Mr. G. J. Turner, while up town, called at the store of Mr. James Allen, when the latter invited him to get into his buggy, and he would drive him home. The invitation was accepted, and they set out. They crossed the Ogden bridge; turned down the lane west of Parry's farm, and when near the residence of Mr. Mason they came to a short, sharp hill, down which the team rushed very fast. It then turned abruptly round the corner, south, when the vehicle was capsized and the occupants thrown violently to the ground. Mr. Turner was seriously bruised on the left hip, his hand, forehead, and scratched in the face. Mr. Allen became insensible from the fall, and received a very serious injury in his left shoulder. Dr. P. L. Anderson has since been in attendance on him, but Mr. Turner needed no medical assistance. Both are doing as well as can be expected.

A shooting affray occurred at Green River yesterday at the election. It appears that some time since a difference occurred between A. E. Bradbury, formerly superintendent of the Sweetwater stage line, and a trapper named Bowen. The breach had not been healed, and yesterday Bowen walked up to the polls to vote. His vote was challenged by Bradbury. The trapper thereupon drew a revolver and shot Bradbury, the ball entering the left shoulder, glanced downward a little, broke one of his ribs and lodged against the shoulder blade. Surgical aid was called, but at last accounts the leaden missile had not been extracted. The trapper was arrested, and it is rumored here that he stands a good chance of being lynched.

The election yesterday was one of the quietest ever known in this city. No opposition whatever. The total number of votes polled footed up to 224, but they were all cast for George Q. Cannon for Delegate to Congress and Gilbert Belnap for collector for this county.
