

Oyer City

August 11-1880

My Dear Sam having a little leisure

I write you a few lines having come
from home this morning and will
return again this afternoon.

The weather is quite warm. The family
are all well at this writing.

My health has not been better for years
little better now above.

Everything in Hooper Press on

standing My wheat crop is better than

it has been for years past in the

family we will raise not far from

two thousand bushels of grain and

have harvested all within our

elves. The Boys are all somewhat

worn down with hard work

Enclosed find a fine Tolon Bill

to help you along in the good work
