

Fillmore ~~San~~ July 15 1877

Dear sister.

I will write a few lines to let you know we got home all right this inst. Found them all well. Helen was very sick last night with her heart disease it lasted all night. I think her gawing was too much for her complaints. Helen King was here just before we got home. Celestial has a girl they like her very much and think she is a smart woman. Maryro gave her a dress pattern and other little notions. I will not the particulars about them more. Edwin's Wife is coming over to spend the twenty fourth. And then I will write more particulars about them. I have delayed writing waiting for Alice to write. She is very busy. She has

gone to Relief meeting this after
noon. Therefore I will scrawl off
a few words. I was up with Helen
most of the night. And can hardly
~~see any thing at all.~~ She is better
this after noon. The weather is very
warm and warm nights. There
has been no letters for you since
you left. You must write and
let us know what your prospects
are. Please give my kind love
to Br and Sister M^r Leitham. I often
think of the pleasant visit at their
house. We are going to have a two day
meeting next Saturday and Sunday
to reorganise. They are going to
celebrate the 29 and have a grand
time of it. I will close for you will
never read what I have wrote
write soon I will try and do better
next time. your sister with respect
Mary M^r Braid
