

Hooperville Hints.

Crops, as in other parts of the County, have been generally prolific.

A slight frost has visited Hooper during the past few nights. Very little damage has been done, however.

Threshing is still progressing, and if the weather continues fine, it will not be long before all the grain will be in the granaries.

Wire fences have cut up the old County road, recently, making the route very awkward to travel, but it is understood that a new County road will soon be surveyed and located.

Rabbit-hunting seems to be very good on the bench east of Hooper, just now, and many of the long-eared jacks can be seen sporting in the cages, when one travels the Hooper road.

On Tuesday evening, Sept. 16th, a conjoint meeting of the Mutual Improvement Associations of East and West Hooper was held in the Relief Society Hall, at which there was a good attendance. Officers for the coming season were sustained as follows: East Hooper—A. C. Christensen, President; Reuben Belnap and Alfred J. Stayner, Counselors; John Manning, Secretary and Librarian; David Jones, Treasurer. West Hooper—Eli Spaulding, President; Willard Flinders and Wm. Wadsworth, Counselor; John T. Rigby, Secretary; John Haynes, Treasurer. After brief remarks by Elders A. T. Wright, A. D. Chambers, and Z. Ballantyne, the meeting was addressed by Elders Mr. F. Cowley and Arthur Stayner, who gave much valuable instruction pertaining to the moral and intellectual advancement of the young. Bishop Belnap also made a few encouraging remarks.
