Cmdr. Knopf said the additional personnel will be needed to handle an anticipated increased workload LIGHTS GO OUT as some \$400 million worth of supplies and equipment are shipped to other bases or otherwise disposed of before July 1, 1963.

President John F. Kennedy has

ordered the huge inland naval installation closed before July 1, 1963. However, Sen. Wallace F. Rennett, R-Utah, has asked for a review of this order, contending that most of the present work load at the NSD can be done here as economically as elsewhere and that transfer of the supplies at the Clearfield installation would involve

tremendous shipment costs. Sen. Bennett reports the Navy Department wants to maintain at least the hydrographic (map) and surplus sales office at the base. Cmdr. Knopf today reported the order closing the depot has had
