Councilmen Will Explain Government

Members of the Ogden City Council will attend a Junior Chamber of Commerce meeting in Ogden Thursday to explain why they think the present form of city government is best for Ogden City.

Attending the dinner session set for 7:30 p.m. will be council members A. Sid Weese, Lucille Isakson, Ernest Ekins, Joseph McCune and Mayor LeRoy Young.

Council members Mark Bott and Scott Price have not as yet indicated they can appear.

In the light of the council's decision June 29 not to call a special election where voters could vote for or against the present system, the question and answer period of the dinner meeting is expected to be of great interest.

A representative of the Junior Chamber extended an invitation to present and past members to attend the session. It will be held at the Top O' the Town, Ben Lomond Hotel. Charge for the dinner will be \$2.

'All Faces West' Board Names 3 New Members

All three men have had an interest in the play for many years, Gordon Belnap, president of the board said Saturday.

The elections bring board membership to 14. Mr. Belnap said inclusion of the three men is in keeping with plans to increase community participation in "All Faces West" as a portrayal of Utah history.

THUNDERBIRDS COMING

5th Weber Air Fair Opens Today With Missile, Rocket Display

The week-long many-faceted Weber Valley Air Fair opens today with the nation's missile power on public exhibition at the parking lot behind the Municipal Building.

Feature attraction of the fifth annual aerial event, the airborne displays, are slated for next Saturday and Sunday.

The Thunderbirds, the Air Force's precision flying aerobatic team, will headline the star-studded flying show.

The T-Birds will arrive at noon Friday and will perform their antics at 3:15 p.m. Saturday and next Sunday with the aerial maneuvers visible from the Ogden Airport proper.

In conjunction with the air fair, 12 Ogden merchants will be co-operating with the Ogden Chamber of Commerce "Aerospace Week" observance.

Replicas of missile products of Boeing Airplane Co., Marquardt Corp., Thiokol Chemical Corp. and Hill Air Force Base will be displayed in the windows of the Bon Marche, Boyle Furniture Co., J. C. Penney Co., W. T. Grant, Fred M. Nye, Blocks, Tanner Clothing, Kid-dieville, Armstrong Sporting Goods, Sears, Reliable Furniture Co., McClanahan's Clothing Co. and Herrod Furniture Co.

Scheduled for exhibition in downtown Ogden will be replicas of the Genie, Falcon, Sergeant, Sidewinder, Snark, Bomarc, and Nike Ajax.

The Genie is capable of carrying an atomic warhead under combat conditions and has a speed of about 2,000 miles per hour.

Smaller, less speedier, but still packing a potent punch, is the Falcon. The deadly Sidewinder carries a conventional warhead, but weighs more.

Admission to the downtown displays is free.

At the airport the "heavyweight" of the Air Force missile family — the Minuteman — will be displayed next Saturday and Sunday.

Other airborne features during the two-day flying schedule will be the Cole Brothers Flying Circus.

This program includes aerial tricks such as wing-walking, delayed parachute jumps and ladder exchange from a car to airplane.

During the airport events parking will be handled by the Weber County Sheriff's Jeep Posse. Admission to the fair is free. However, there will be a 50-cent per car parking charge to defray the expense of the show.

STAY CLEAR AND PLANES WILL FIGHT FOREST FIRES

The Forest Service stands ready to fight forest fires from the air. There is only one thing that can stand in their way: the public.

Spectators must stand back or the service cannot be used, it was announced Saturday by Kenneth Maughan, district ranger for the Cache National Forest.

Navy TBM planes are in Salt Lake City on a stand-by basis with either borate or bentineite mixed with water. The pilots are able to get as close as 30 feet to a blaze and dump 600 gallons of the mixture in two separate drops.

Ranger Maughan said the planes could have been used in the recent 10-acre blaze near El Monte Golf Course, but too many curious people were in the area.

The chemicals will not squelch the fire completely but they act as a retarding factor, allowing men to get into the area and get the fire under control. The planes are also able to get very close to fires on steep hill sides.

30 TOO HIGH

Easy on Gas Pedal; 25 Per Will Remain

The City Council has decided against raising the residential area speed limit from 25 to 30 miles an hour.

A traffic speed limit map prepared by Graham Shirra, city traffic engineer, was submitted to the council by Edward L. Carlsen, city manager.

The council ordered the study made about two months ago to determine if it would be advisable, since the speed limit is 30 in residential areas on state highways such as Grant, Wall and 30th.

The Ogden building committee planning the new church is headed by Pete Vlahos. Vice chairman is Gus Mahas. Other members of the group are Harry Soterias, secretary; George Markos, treasurer and George Mahlis, Gus Toulatos, John Tsakalos, Thomas Liapis, Gus Bolos, Anthony Kalivas and Alex Papageorge.

Ben Lomond Class To Hold Reunion

The Ben Lomond High School graduating class of 1956 is planning a reunion next Saturday from 2 to 7 p.m. at the Weber County Memorial Park in South Fork of Ogden Canyon.

It will be a family affair. Contests, races, softball and horseshoes will be featured and a special variety show type program will be presented. Families are asked to bring their own lunch, drinks will be furnished.
