TVs Taken At Firm's Warehouse

Burglars broke into Boyles Furniture Warehouse at 2250 Wall sometime Monday morning, taking six color television sets valued at \$1,800.

The burglary is one of several theft complaints Ogden police today are investigating, including the theft of a \$675 diamond ring, a \$55 watch and two purse snatches.

Patrolman Spence Phillips said the thieves entered the warehouse between 12:30 and 9 a.m. Monday. The alarm system for the warehouse did not go off. Entry was made through a window on the south side of the building.

FOUND BOX

Paul Giles told officers a diamond ring he had placed in a box with a ruby ring was missing from the box Monday afternoon.

He told officers he had placed the box under some tools in a drawer of his watch repair counter at Grand Central Dec. 8. He located the box Monday under a counter with the diamond ring missing from it.

Arnold Threadgoid of the Elite Mart at 2671 Washington reported a watch taken from the window display Monday evening, apparently by two men who entered the store at about 6 p.m.

Edna Jensen of 1260 25th reported to police her purse containing \$55 grabbed from her while she was walking on 24th St. near Madison Avenue at about 7:30 p.m. Monday.

Mrs. Jensen said a man came up behind her, struck her in the back and grabbed her purse. She saw the man run north on Madison then west between some homes.

Patrolman Gary A. Greenwood said the area was searched for the thief and purse, but neither was found.

Violet Kelstrom of 227 28th reported her purse containing \$20 in cash grabbed from her while she was standing at 36th and Lincoln at about 6 p.m.

She told officers she was approached by the man from the west.

He tapped her on the shoulder and as she started to turn, he grabbed her purse. She told officers she held onto the purse until the strap broke.

LYNN H. WIESE Wins Cash Award
LARRY W. JENSEN Method Saves Money

Forest Service Honors Pair for Achievements

Two cartographic technicians, to 1968, employed by the Forest Service regional office here have received cost reduction awards for suggesting a new method of map reproduction that may save the federal government up to a quarter of a million dollars a year.

They are Larry Jensen of 640 N. Madison and Lynn H. Wiese of 430 W. 5th N. in Brigham City. Both men have been honored during an improvement awards program in Washington D.C.

Their new method of map reproduction is expected to save \$25,700 in the Utah, Idaho and Nevada portions of the Intermountain Region. When applied to all National Forest operations, the method could save \$250,000 per year.

The suggestion also provides an opportunity to reduce other operating costs, such as transferring resource data to base maps. If this works out, the future saving to the Forest Service could reach as much as \$975,000 annually.

Both men are former Weber State College night students.

Mr. Wiese has been with the Forest Service since 1960 and worked as a cartographic draftsman in this office prior to a stint as head of the Photogrammetric Section on the Dixie National Forest from 1966

Pharmacists See Strict Laws to Curb Drug Use

Additional paperwork will not curb drug abuse but improved enforcement and clarification of current anti-narcotics laws are needed, according to the Weber Pharmaceutical Association.

Members re-affirmed their resistance to a proposed triplicate copy on prescriptions at a meeting with District Attorney Dale E. Stratford, State Senators E. LaMar Buckner, R-Ogden, and Monte D. Bailey, D-Ogden.

Sen. Buckner suggested the pharmacists review proposed legislation on drug abuse carefully and make their recommendations known to lawmakers.

NO FUND

Sen. Bailey concurred, saying that too often legislators pass laws but fail to fund for enforcement.

Mr. Stratford said a question in writing new laws revolves around how to equate drug abuse with other criminal act sentences.

He noted legislative proposals include enactment of a law affecting compounds in medicines and suggested pharmacists watch for complicated legislation which, if enacted, could not be enforced properly.

Sen. Buckner said the concern of lawmakers is the writing of legislation to curb drug abuse yet district judges interpret the new laws differently.

"What good does it do to pass tougher laws if the courts throw them out on technicalities?" Sen. Buckner asked.

"Judges," said Sen. Bailey, "are like state road commissioners—apart from anyone else."

Mr. Stratford, defending the courts, said a judge does not operate within a vacuum.

"If we get a big wholesaler of drugs, there is no question on the part of the courts, but first offenders on trial for sale pose a different problem," the district attorney said.

"We have given the judges the right of probation but in current drug abuse legislation we say 'no, you must sentence,'" Mr. Stratford explained.

NOT SOLUTION

More control over pharmacies is not the solution, said pharmacist Roger Hill.

The drug problem is not within the pharmacy itself but around it, with break-ins a major issue said pharmacist Vincent Tassone.

Mr. Hill said the law must be clarified in the field of control and prosecution.

He and others opposed the sale of syringes and needles through prescriptions because of the inconvenience resulting to diabetics and livestock breeders and that such a step would not curb drug abuse.

Pharmacist Dick Cave said he is critical of the makeup of the governor's drug committee which, he added, "reads like a Who's Who."

He suggested pharmacists and police chiefs be added to the committee.

He alleged one offender before a court had been peddling drugs for five years, was given probation and sent to a psychiatrist.

Such people are not afraid of the law, Mr. Cave said.

ANSWER ALARMS

Two accidental alarms were turned in through the fire detection system at Smith-Neil Rest Home, 2331 Fowler, Monday, one at 11:40 a.m. and the other at 12:16 p.m., according to Ogden City firemen.
