ties of the western states presented more actual cost savings than were inherent in EHV transmission, coal-slurry routing or development of integral or unit-train approach by railroads. It was apparent from his de-

tailed and telling discussion that tremendous investment involing mine - mouth plants, steam - electric complexes and big transmission by large groups of utilities would be required to bring production of millions of tons of coal arnually in Utah to reality.

NONE OF THE speakers presented any doubts that Utah, with billions of tons of coal reserves, could meet the supply issue. The preemption and dedication of sites for power plants, water use and coal reserves was another question.

Mr. Reichl asserted that the 110 - mile coal - slurry pipeline operated by Consolidation Coal Co. was closed down as a result Data From U.S. Weather Bursau

Cloudy weather will continue Friday and Saturday over most of the Intermountain Sunset (37) sucrise Friday, 7:23; a.m., Resign and it will be colder over most of the area except for southern Idaho and Salt Lake City, where a warming frend is forecast.
