MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy, morbid matter, but destroys the germs, cures Malaria and restores this vital

fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor

to the entire system. Book on the blood and any medical advice without charge.

Here's a Range That is Different From Others It's a Buck's Range

It has a special duplex grate that can be taken out without taking range to pieces. It has a hot blast fire back that burns the gas as well as the coal, which increases the heating power. It has a wide shallow fire box, that uses less coal than others—its a fuel saver. It has the sanitary white enameled oven door and reservoir. It has a hundred other superior points. We will let you use it one month, giving you a chance to test it thoroughly. If it doesn't do as we say, we bring it back and refund any money paid on it. If it makes good the terms are easy—
